To the PJM Generation Manager:

Pursuant to Section 113.1 of the PJM Open Access Transmission Tariff (“PJM Tariff”), and in accordance with Section 9 of PJM Manual 14D, EFS Parlin Holdings, LLC (“Parlin”) hereby submits notice of the Deactivation of the Parlin generating facility. The Parlin facility is a 123.5 MW natural gas generating facility located in Sayreville, NJ, within the geographic footprint of PJM. The Parlin facility’s PJM unit ID is 51200102.

Parlin has filed for bankruptcy and is pursuing potential options to sell or retire the facility. Pending review by PJM, Parlin may retire the unit indefinitely. In that event, the planned retirement date is November 1, 2023. Project investment is not expected to change the economics of the plant retirement. However, if the facility can be sold out of bankruptcy, Parlin reserves the right to withdraw this deactivation notice, which, pursuant to discussions with PJM (via Microsoft Teams conference call and follow-up email on June 29, 2023), Parlin understands is permissible under the PJM Tariff.

Parlin notes that, pursuant to Section 113.2 of the PJM Tariff, PJM will notify Parlin by August 31, 2023 of any reliability impacts resulting from the proposed plant retirement specified herein and to provide an initial estimate of the period of time it will take to complete any transmission system reliability upgrades necessary to alleviate the reliability impacts. In such case, Parlin will review whether to extend the retirement date.
