Demand Response Subcommittee
Final Proposal Report

Date (December 2, 2015)

Issue Summary

Submittal Deadlines – Strive to submit tariff changes to FERC no later than March 2016 (such that changes are effective prior to start of 16/17 Delivery Year
Problem Statement/Issue Charge - Demand Response Capacity Performance non-summer capacity measurement CBL Process
Problem Statement brought forward by Demand Response Subcommittee
Problem Statement/Issue Charge approved at 10/14/15, MIC
Number of Meetings covering this topic: 7

1. Recommended Proposal

Use the default (tariff defined) economic CBL for new DR CP non-summer capacity compliance calculation unless and alternative CBL is requested and approved. Alternative CBL process will be same as defined in tariff for economic registrations (must run RRMSE test). If location has economic registration then economic registration cbl will be used unless it is maximum baseload method which will use default CBL. This is same proposal previously approved by DRS for emergency energy M&V before it was postponed due to EPSA case. No stakeholders at DRS meeting opposed this proposal or voiced concerns about this proposal. MMU voiced concerns with this proposal at the MIC because it could reduce the accuracy of the estimated load reduction if we have a Load Management event in the non-summer months and a more accurate CBL for the specific customer may exist.

2. Alternate 1 Proposal

3. Alternate 2 Proposal

4. Comparative Summary

5. Standing Committee Results

[Replace with voting results for all options at standing committee or senior task force.]

Appendix I: Proposals Not Meeting the Threshold

[Provide bulleted list of alternate proposals considered which did not meet the 3:2 threshold.]

Appendix II: Supplemental Documents

[Replace with a bulleted list of hyperlinks to key stakeholder process documents posted on the PJM website. Ex.: Options and Solutions Matrix, Governing Document Revisions (OA, Tariff, RAA draft language), etc.]

Appendix III: Stakeholder Participation

[Provide a list of participants here including name, company, and sector.]
