

Metering Task Force Update

Nancy Huang
Sr. Engineer, Outage Analysis Technologies
Market Implementation Committee
December 2, 2015

Who we are:

- MTF approved by OC in September
- PJM brought forward the problem statement and issue charge

What we do:

- Review and choose the best meter and metering policies and requirements within the PJM Interconnection, and to most effectively and efficiently express those policies and requirements in PJM Manuals
- Wrap up within 6 months

Where we are:

- Lots of preparations prior to the 1st Stakeholder meeting
- Focus on education in the 1st group meeting on November 13
- Interest explore and matrix development in the next meeting on December 16
