

### Auction-Specific Bilateral Transactions

See associated *Problem/Opportunity Statement*

#### Issue Source

Based on questions raised by various stakeholders concerning Auction-Specific Bilateral Transactions, PJM determined clarifications are needed concerning the continued utilization of this type of bilateral transaction. The issue is articulated in the Problem/Opportunity Statement associated with this Issue Charge.

#### Stakeholder Group Assignment

This issue can be discussed and worked on through the Markets Implementation Committee.

#### Key Work Activities

- Discussion of potential solutions
- Follow-up education as needed.
- Develop Tariff or Manual Language, if needed.

#### Expected Deliverables

PJM anticipates changes to Tariff, Attachment DD ~~as well as~~and/or Manual 18.

#### Expected Overall Duration of Work

PJM anticipates discussion of this item during 2-4 sessions of the MIC, 2 sessions of the MRC and endorsement at the MC, with a FERC filing in 6-8 months from endorsement of the Problem Statement and Issue Charge.

#### Decision-Making Method

PJM anticipates this issue can be resolved through Tier 1 consensus.
