Undefined Regulation Mileage Ratio Calculation

Issue Source

PJM

Issue Content

Address the specific issue around the calculation of Regulation Mileage Ratio to prevent an undefined condition.

Key Work Activities and Scope

1. Brief education on the Regulation Mileage Ratio calculation and how it is used in the Regulation Market.
2. Develop a proposed solution for the undefined Regulation Mileage Ratio calculation error.
3. Define an implementation timeline for the proposed solution

Out of Scope – All other aspects of the Regulation Market outside the Regulation Mileage Ratio calculation.

Expected Deliverables

Deliverables include the following:

1. A recommendation to the MRC on market rule changes for a proposed solution.
2. Updates to the Tariff and/or Manuals as applicable.

Decision-Making Method

PJM will seek Tier 1 consensus (unanimity) on a single proposal for this issue.

Stakeholder Group Assignment

PJM will work the issue through an abbreviated CBIR process ~~the "Quick Fix" process~~ at the Markets Implementation Committee (MIC).

Expected Duration of Work Timeline

~~PJM will propose a solution during the first read of the Issue Charge and request a vote at the following meeting~~2 Months.

Start Date	Priority Level	Timing	Meeting Frequency
8/1/2021	☐ High	☒ Immediate	☐ Weekly
	☒ Medium	☐ Near Term	☒ Monthly
	☐ Low	☐ Far Term	☐ Quarterly

Charter

(check one box)

	☐	This document will serve as the Charter for a new group created by its approval.

☒	This work will be handled in an existing group with its own Charter (and applicable amendments).
