

# Transparency of Operational Changes

Joe Ciabattoni  
Manager – Markets Coordination  
Market Reliability Committee  
July 23, 2015

- Problem statement and issue charge was approved at MIC November 2014
  - Desire for advanced notice of new closed loop interfaces
- Issue was worked at the MIC over 7 sessions
- Package was endorsed at the July 2015 MIC by acclamation
- PJM is in support of the endorsed package
- Seeking MRC endorsement

- No tariff change
- PJM will announce the implementation of new closed loop interfaces 5 days prior to close of next FTR auction
  - Advisory notice when possible
  - Post information on PJM OASIS
  - Send e-mails to MIC and OC
  - Definition of interface in CSV or XLS format
- Exceptions short duration outages <10 days and setting price for demand response per existing manual and Tariff
