

Item 1: Friendly Amendment of the Independent Market Monitor for PJM

MRC Meeting, June 29, 2022

Service on PJM of Members Filings

Problem / Opportunity Statement

PJM has experienced times when a relevant FERC filing is made by a Member but it is not served on PJM. The IMM has also not been served relevant FERC filings. These Examples include ~~one or more of the following types of filings~~: rate Tariff filings, service agreement filings, settlements under the PJM Governing Agreements that impact PJM's or the PJM Members' rights and obligations under the Governing Agreements, and requests for waiver of any provision of the PJM Governing Agreements. Service of such filings on PJM is important to ensure PJM is able to intervene and participate in such proceedings to protect the interests of PJM Members and markets. Service of such filings on the IMM is important to ensure that the IMM is able to intervene and participate in such proceedings to perform the market monitoring function. There is an opportunity to add service requirements in PJM's Governing Documents and/or Manuals.

Issue Charge

...

Key Work Activities and Scope

1, Review and provide education on the need for PJM to be served with rate, waiver and other filings that impact PJM's rights and obligations under the Governing Agreements.

2. Review and provide education on the need for the IMM to be served with filings that affect PJM market rules and PJM markets.

2. Develop a solution to include in the PJM Governing Documents and/or Manuals, as appropriate, that addresses the concern raised in the accompanying Problem Statement/Opportunity Statement.
