

# OC/MIC Special Sessions: Fuel Requirements for Black Start Resources

Operating Committee  
July 9, 2020

- July 2018 - Problem Statement/ Issue Charge Approved
- January 2019 - CBIR Process Begins
- March 2020 – Planned vote on packages
- Between February MIC/OC and March MRC meeting:
  - Continued work with stakeholders to refine proposals and costs
  - PJM evaluated 2/13/2020 OPSI letter concerns
  - Reviewed updated packages and proposed next steps with OC/MIC special session on 3/2/2020
  - Status update at March MIC/OC/MRC – FRBSR on hiatus to perform additional analysis

- Technical Analysis:
  - Additional restoration impact analysis, enhancing previous incremental increase in restoration time analysis
  - Investigation of potential gas pipeline and supply issues impacting restoration process
- Cost analysis / economic impact:
  - Evaluate cost of fuel assurance for various packages vs. benefit (RTO / Zonal level)
- Estimated target to resume FRBSR activities: Q4 2020
  - Separate from Black Start CRF, Involuntary Termination & Substitution Rules Problem Statement / Issue Charge
