

Outage Coordination Update

Rich Brown
Manager, System Operator Training

Operating Committee
February 09, 2022

Purpose:

- Expand stakeholder understanding of the processes used for transmission and generation outage scheduling and coordination and to develop process enhancements where appropriate and improve overall transparency.

Timeline:

- Special Sessions started in July 2022 and continued through January 2023.
- The stakeholder process is being transitioned to the OC to work and refine stakeholder packages

Detailed education session held to provide stakeholders information on:

- Procedures for submitting, classifying (i.e. on-time, late), evaluating, approving and scheduling transmission and generation outage requests and rating changes
- Processes for coordinating outages, including RTEP projects
- Outage Acceleration process
- Outage assessments and transparency and available tools

Out of Scope:

- Modifying the Transmission Owners' ability to take necessary outages on their facilities. Any proposal that conflicts with Article 4 of the Consolidated Transmission Owners Agreement (CTOA).
