

Dynamic Line Ratings ANOPR Update

PJM Operating Committee
October 10, 2024

Erin Lai
Senior Counsel, Office of the General Counsel

- Comment Deadline: October 15, 2024
- Goal(s): Improved accuracy and transparency of transmission line ratings.
- Potential Reforms:
 - Require transmission line ratings to reflect the impacts of solar heating and forecasts of wind conditions
 - Enhance data reporting practices related to congestion in non-RTO/ISO regions

- Generally consistent with prior comments related to DLR implementation:
 - Order No. 881 Considerations
 - Marginal Benefits
 - Implementation Timeline
 - Uniform vs. Targeted Approach
 - Uncertainties
 - Not a Substitution for Reliability / Planning Upgrades
