Suzanne,

As I mentioned at the end of the October 9 meeting, could you incorporate this revision to the subject section of Manual 14F →

o Nothing in the inclusion of the cost cap in the Designated Entity Agreement is intended [to indicate an approval by the PJM Board of any proposed elements included in the Schedule E Non-Standard Terms and Conditions and/or](#) to preempt the right of any party to seek modifications to be ordered by the Commission or otherwise challenge the recovery of costs through the FERC ratemaking process.

Thanks.
