

Reliability Analysis Update

Transmission Expansion Advisory
Committee

March 10, 2020

2020 RTEP Analysis Update

- Post Summer peak case in March
 - Target March 1 – Posted on February 28
 - Looking for transmission owners to begin FERC Form 715 analysis to post violations in the proposal window
- Post preliminary violations
 - Target April 15
- Open 60 day proposal window
 - Target June 1

- PJM looking to streamline the ability of stakeholders to obtain information relating to the posting of violations and information relating to the proposal window
 - PJM reviewing minor changes to posting process to only put the case and other CEI information behind CEI protections - **COMPLETED**
 - Eliminate encrypted files associated with other posted materials to allow easier access
 - More information to be made available at the March TEAC

Questions?
