

# DR MOPR Process

Demand Response Sub-Committee  
Feb. 19, 2020

- Current locations CSP has registered in DR Hub at the time of the 2025/2026 BRA
- 2025/2026 BRA Pre-Registration will use the greater of the 2021/2022 or 2022/2023 Nominated value

| Location | 2021/2022 Nominated MW | 2022/2023 Nominated MW | MW used in Pre-Registration |
|----------|------------------------|------------------------|-----------------------------|
| 1        | 10                     | 15                     | 15                          |
| 2        | 10                     | 9                      | 10                          |
| 3        | 2                      | -                      | 2                           |
| 4        | 5                      | 5                      | 5                           |

- Identification/Certification done at Location level

| Location | MW | Type | Exempt | Previously Cleared | State-Subsidized | Competitive Exemption | Resource/Category             |
|----------|----|------|--------|--------------------|------------------|-----------------------|-------------------------------|
| 1        | 15 | Load | ✓      | n/a                | n/a              | n/a                   | Load DR Exempt                |
| 2        | 10 | Load | ✗      | ✓                  | ✓                | ✗                     | Load DR Existing MOPR         |
| 3        | 2  | Load | ✗      | ✗                  | ✗                | n/a                   | Load DR No Subsidy            |
| 4        | 5  | Load | ✗      | ✓                  | ✓                | ✓                     | Load DR Competitive Exemption |

PJM Identifies

CSP Certifies

- Planned MW to offer would need to be identified by

- Load vs Generation backed DR
- Resource/Category being offered
  - State-Subsidized
  - New MOPR
  - Competitive Exemption
  - Etc...

| Resource/<br>Category         | Existing<br>MW | Planned<br>MW |
|-------------------------------|----------------|---------------|
| Load DR Exempt                | 15             | -             |
| Load DR No Subsidy            | 2              | -             |
| Load DR Existing MOPR         | 10             | 10            |
| Load DR Competitive Exemption | 5              | 25            |

- Existing MW to offer

- May impact credit requirement calculations since locations would be linked to resources/categories

- CSPs submit offers at appropriate prices based on the Pre-Registration and Planned MW identification process
- Two potential methods for offering into the auction
  - RPM Resource modeled for each category
    - Load DR Exempt
    - Gen DR Exempt
    - Load DR Existing MOPR
    - Etc...
  - Categorical buckets on a single Demand resource
    - Exempt Segment for load and separate one for Gen back
    - Existing MOPR Segment for load and separate one for Gen back
    - Etc...

# Auction Results/DR Registration

## 2025/2026 Auction Results

| Resource/Category             | Offered MW | Cleared MW |
|-------------------------------|------------|------------|
| Load DR Exempt                | 15         | 15         |
| Load DR No Subsidy            | 2          | 2          |
| Load DR Existing MOPR         | 20         | 0          |
| Load DR Competitive Exemption | 30         | 30         |

## 2025/2026 Locations registered in DR Hub

| Location | Subsidized | MW | Resource/Category             |
|----------|------------|----|-------------------------------|
| 1        | 1          | 13 | Load DR Exempt                |
| 2        | 0          | 3  | Load DR No Subsidy            |
| 5        | 1          | 3  | Load DR Existing MOPR         |
| 6        | 1          | 30 | Load DR Competitive Exemption |

## 2025/2026 Final Position

| Resource/Category             | Committed MW | Nominated MW | Available MW |
|-------------------------------|--------------|--------------|--------------|
| Load DR Exempt                | 15           | 13           | -2           |
| Load DR No Subsidy            | 2            | 3            | 1            |
| Load DR Existing MOPR         | 0            | 3            | 3            |
| Load DR Competitive Exemption | 30           | 30           | 0            |
