PJM Identifies							CSP Certifies				

PJM provides a breakdown of the MW associated with each location
 CSPs certify whether or not each location is a Capacity Resource with State Subsidy

- Based on these certifications, Capacity Exchange will display whether or not the location is subject to MOPR as described in OATT Attachment DD Section 5.14 (h-1)

Type	Category	Default MOPR Price	RPM Resource
Load/Gen Backed	DR Exempt No Subsidy Competitive Exemption	N/A	PJM PECO DR
Load	State Subsidized-New	Prior 3 BRA's Avg. Offer Price for Load DR	PJM PECO DR Load-Sub-New
	State Subsidized-Existing	Net ACR (\$0)	PJM PECO DR Load-Sub-Existing
Gen Backed	State Subsidized-New	Net CONE	PJM PECO DR Gen-Sub-New
	State Subsidized-Existing	Net ACR	PJM PECO DR Gen-Sub-Existing

The Default MOPR Price will be applied to both Annual and Summer-Only sell offers

Zone	LDA	Pre-Reg MW	Planned MW	Resource*	Existing Annual	Existing Summer	Planned Annual	Planned Summer	Credit Required
