Capacity Performance (CP) and PRD Requirement for use of Test load reduction for Add Back

- If CP DR and PRD tested on one or more of the High Load Days
- If CSP wants those test reductions included in the 5CP and Add Back processes
- If CSP certain that they won't test in October 2021 or May 2022
- Then CSP must contact PJM at dsr_ops@pjm.com
 - Test will be put into Confirmed status by PJM
 - CSP will submit compliance data for test by deadlines on next slide
 - CSP forfeits potential additional **Tests** in Oct 2021 and May 2022
 - **Retesting** can still be performed

If CSP does not contact PJM, test load reduction will not be used for Add Back
