

# 2021 Fall Drills and Beyond

Brian Lynn  
Sr. Trainer II  
PJM Drill Coordinator

Dispatcher Training Subcommittee  
April 20, 2021

- Thank you!
- All compliance obligations met
- Organizing the last few pieces of data
- Aiming for the May committee circuit

- Background
- Cancelled for 2021
- There are no ***Restoration*** Drills scheduled for the remainder of the year
- Analogy: 4-Part Communication: 230kV Capacitors

- NEW Program!
- Fall Timeframe: September 27- November 5, 2021
- How does it work?
  - A member, or members, schedule a drill with PJM
  - PJM and member(s) work out the details
  - Drill happens, hours issued, etc.

- Must occur on a Tu, W, Th from September 27- November 5
- Drills will be scheduled on a first-come, first served basis but parties wishing to schedule a second drill will be lower priority than parties scheduling their first
- GO/GOps/MOCs wishing to take part in a drill must schedule with their TOs
- Scheduling Deadline: 23:59:59EPT May 31, 2021

# Questions Pt. 1?

- Bottom-to-top needs-analysis driven project
- Starting with the compliance requirements (we're going to still meet those)
- Working through every party at PJM that touches the drills
- There is no requirement, for any member, to participate in this process

- Invitations are very important for compliance purposes
- Process has been attempted to be improved many times over the past few years
- “Resource Tracker 2.0” and other large scale initiatives MAY bring future improvements
- The ask: 2-3 TOs willing to pilot a test drill invite process in the next couple of months

# Questions Pt. 2?

- Invitation improvements
- SharePoint improvements
- eDART/DART integration
- More Generation-Involvement and CEH opportunities

Questions? (Last one)
