

Restoration Drill Updates

Brian Lynn
PJM Restoration Drill Coordinator

Dispatcher Training Subcommittee
June 15, 2021

- Drill request/submission window closed
- If you requested a drill
 - Should have received a confirmation e-mail from me last Friday
 - If you did not, contact me immediately
 - Will work out the next steps individually with/for each requestor
- Updates to the DTS moving forward will be minimal
 - These drills are not required
 - Will not have summary reports, as promised

- Full set of test TOs has been obtained – thank you!
- Shooting for the July timeframe to start testing
 - Drill resource backlog
 - Locking in the resources for the fall takes priority
- Will work with the testing TOs directly
 - Updates to the DTS during this effort will be minimal
 - Report upon completion with lessons learned will be delivered

- Will be slow until after kicking off the Invite Pilot
 - Resource backlog
 - Some tied up in the other effort
- Once underway...
 - Frequent and detailed updates to the DTS
 - May reach out with questions/feedback to individual, or groups of, TO(s)
- Prior to getting underway, minimal updates
