- Exceedingly high number of considerations and conflicts
 - COVID variants... COVID getting better?
 - Seminar and other PJM activities wanting to restart ASAP
 - Dispatch schedule changes
 - And so on...
- Final selected and approved dates
 - Only option that met all requirements
 - Not an ideal choice, in a vacuum

- Return to a full-RTO drill is a superior form of restoration practice
- Generation won't have to participate twice
- PJM's Dispatch will have full use of the simulator
- Will be able to schedule TO drills this Fall

- Up-to-date restoration contacts continue to be an issue
 - Situation has improved over the last few years
 - Far from 100%, that's the goal
- Tool Improvements
 - Still not enough to solve this issue
 - Some have single window annually
 - And/or update by exception process
- Contact Daniel.Restucci@pjm.com or Brian.Lynn@pjm.com with updated restoration contact information if you have it available
