- 10/23 - Mid-Atlantic/SMECO
- 10/29 - Grid Security
- 10/31- 11/01 – First Energy/CPP

For those coming to Milford

- Please send the names of those coming so we can notify security, include time you expect to arrive, drills usually start around 0700-0800.
- You'll be met at the security office.
- Let us know if you need directions and hotel information.

For those conducting the drill at your location

- Let us know when you plan to start, we'll send the names of the PJM operators that will be attending.
- Are there any special security needs for our operators?
- Please provide the address where your drill will be held
- For those that are further away please provide some local hotels.

Restoration Objectives

- Restore critical load
- Identify any opportunities for top down restoration
- Connect to outside areas
- Return to normal operations

- SharePoint will be used for both Milford and Company location drills
- If someone is participating in the drill that has not used SharePoint, we'll need their Account Manager userid to give them access
- We will be posting the drill packet on the DTS in the next couple weeks, with links to SharePoint, Participation Form and Evaluation Form
- All other forms will be via SharePoint

- Online System Restoration Drill Refresh will be available late September
