

## AUGUST 2022 ENHANCEMENTS

(Release notes: <https://pjm.com/markets-and-operations/etools/emerg-procedure/emergency-procedures-release-notes.aspx>)

### ***User Profile & Preferences***

Fix for reported issue where a logged in user cannot create or view user profiles.

Functionality to allow users to test email setup for user profiles.

- Users can request a confirmation email from EP at any time.
- Useful for confirming EP emails are not going to Spam/Junk folders or otherwise being blocked.

Automatic update of user profiles when new Regions or Message Types are added to EP if the user already has all related regions and Message Types selected.

### ***Posting Enhancements***

Update to Subject of EP Emails

- Current: Emergency Procedures (ENV)
  - ENV = environment: PRD for Production or TRN for Training
- New for PRD: PJM–EP: Event Message Type - Status (PRD)
- New for TRN: (TRN) PJM–EP: Event Message Type - Status

Secure Data in Postings

- New section of Postings for PJM to enter data that should not be shared with the general public e.g. Control Room phone and fax numbers.
- Users registered for EP will continue to see this data (when logged in) and receive the data via email.
- Guest users will not see this data in the posting.

Posting Summary Report

- High level summary of postings active per day.
- Applicable for postings with the following priorities: Action, Alert, Warning and Advisory
- Max search duration = one month.
