The screenshot shows a web browser interface for the PJM Meetings website. At the top, there is a navigation bar with the PJM logo, a search bar, and a 'Go advanced' button. Below this is a secondary navigation menu with links for 'about pjm', 'training', 'committees & groups', 'planning', 'markets & operations', and 'documents'. The main content area displays two meeting registration cards. Each card includes the meeting title, date, time, location, and contact information. To the right of each card is an 'Attendance' section with a dropdown menu set to 'Not Attending' and a registration due date. A 'Submit' button is located at the bottom right of the registration area.

## Committees & Groups

PJM interconnection committees and groups are integral to developing and refining PJM's rules, policies and processes. These groups provide a forum for members to share their positions and resolve difficult issues. Market committees are essential to PJM's governance structure for administering an open grid and transparent markets.

A collaborative approach - a hallmark of the way PJM conducts business - enhances our ability to maintain grid reliability and ensure robust markets.

## Demand Response

Demand Response is a voluntary PJM program that compensates end-use (retail) customers for reducing their (load), when requested by PJM, during periods of high power prices or when the reliability of the grid is threatened. Customers receive payments from PJM members called Curtailment Service Providers. [Learn more about our Learning Center.](#)

## Financial Transmission Rights

Financial Transmission Rights or FTRs allow market participants to offset potential losses (hedge) related to the price risk of delivering energy to the grid. FTRs are a financial contract entitling the FTR holder to a stream of revenues (or charges) based on the day-ahead hourly congestion price difference across an energy path.
