

Changes found in the August 2023 DR Hub XSD release are shown below.

Note: All users should (at a minimum) be at the May 2023 release level by August 15, 2023. Items included in this release will not be available to implementations using a prior release.

Prior to updating or replacing any XSD, backup existing versions of the current XSD and any in-house changes you've made prior to this release.

It is advisable to perform a file comparison between the XSD you are using today and the XSD you are migrating to.

Please verify all changes prior to implementation.

The April 2023 XSD changes are as follows:

Additions to Existing types are shown in green. Items removed are shown in red where applicable.

Note: Automation of Settlements for TEST\_EMERGENCY\_EVENTS may fail if this update is not applied.

```
<xs:simpleType name="settlementType">
  <xs:restriction base="xs:string">
    <xs:enumeration value="EMERGENCY_ENERGY"/>
    <xs:enumeration value="ECONOMIC_ENERGY"/>
    <xs:enumeration value="TEST_EMERGENCY_ENERGY"/>
  </xs:restriction>
</xs:simpleType>
```
