Notes:

[A] Year-end balance with adjustments for FAS143, FAS106, FAS109, CIACs and normalization to populate Attachment H-11A, page 2, Lines 19-23, col. 3 for accounts 281, 282, 283, 190, and 255, respectively

[B] FERC Account No. 282 is adjusted for the following items.

- [E] See Attachment H-11A, page 5, note J; A utility that elected to utilize amortization of tax credits against taxable income, rather than book tax credits to Account No. 255 and reduce rate base, must reduce its income tax expense by the amount of the Amortized Investment Tax Credit (Form 1, 266.8.f).
- [F] Sourced from Attachment 5b, page 1, col. O for PTRR & Attachment 5C, page 2, col. O for ATRR
- [G] Sourced from Attachment 5a, page 1, Lines 1-5, col. 4
- [H] Include any additional adjustments to ADIT items as may be recognized in the future to be proper for PTRR/ATRR calculation purposes.

Notes:
[A] Reference for December balances as would be reported in FERC Form 1.
[B] AGC's capital structure adjustment per FERC Docket No. ER84-504-000
[C] Renaissance issued securitized debt in 2007 and the proceeds were distributed up to Potomac Edison in the form of a dividend. The balance in account 216.1 related to Renaissance does not require exclusion as there is an offsetting amount in account 216 and therefore no impact on total equity.

Stated Value Inputs

Formula Rate Protocols Section VIII.A

1. Rate of Return on Common Equity ("ROE")

SFC's ROE is set to:

10.45%

2. Postretirement Benefits Other Than Pension ("PBOP")
*sometimes referred to as Other Post-Employment Benefits, or "OPEB" Total FirstEnergy PBOP expenses Labor dollars (FirstEnergy) cost per labor dollar -\$15,646,300 \$2,161,999,525 -\$0.0072

t = time

The current portion of long term debt is included in the Net Amount Outstanding at 1 = N in these calculations.

The outstanding amount (column (e)) for debt retired during the year is the outstanding amount at the last month it was outstanding.

* z = Average of monthly balances for months outstanding during the year (everage of the balances for the 12 months of the year, with zeo in months that the issuance is not outstanding in a month.).

* The Average of monthly balances for months outstanding during the year (everage of the balances for the 12 months of the year, with zeo in months that the issuance is not outstanding in a month.).

* This Total Weighted Average Debt Cost will be shown on page 4, line 31, column 5 of formula rate Attachment H+11A.

* This Total Weighted Average Debt Cost will be shown on page 4, line 31, column 5 of formula rate Attachment H+11A.

| 47 | Interest | -\$7,829 |
| 48 | Total Over (Under) Recovery plus True-Up with Interest | -\$53,780 |

Interest on any True-up shall be based on the interest rate equal to the interest rate determined by 18 C.F.R. § 35.19a and published on the FERC website. Interest rates will be used to calculate the time value of money for the period that the True-up exists. The interest rate to be applied to the True-up will be determined using the average rate for the twenty (20) months preceding September 1 of the current year. Interest on refunds and surcharges shall be compounded on a quarterly basis.

The ATRR is used to compare against the billed revenue in the true-up calculation. This calculation excludes prior year true-up amounts.

The goal is to determine the value to input in Col. (D), Line 28 such that the value in in Col. (D), line 41 becomes zero. For example, using Excel's Goal Seek function, the goal would be to set Excel cell G64 to 0 by changing only Excel cell G48.

Notes

- (A) Amounts represent a subset of the total PJM bill for the entire AP Zone
- (B) The PJM NITS & TEC charges will include a true-up for the (over)/under recovery from a prior rate period. The total without true-up for NITS and TEC will be taken to Attachment 12 and Attachment 13 respectively.
- (C) Any charges shall be entered as positives and refunds shall be entered as negatives. Includes any necessary prior period adjustments including those identified through the discovery or challenge procedures, as defined within the protocols.

Upon a tax rate change (federal, state), the Company remeasures its deferred tax assets and liabilities to account for the new applicable corporate tax rate. For schedule M items not directly taken to the P&L, the result of this remeasurement is a change to the net deferred tax assets/liabilities recorded in accounts 190, 282, and 283 with a corresponding change in regulatory assets (account 182.3) and regulatory liabilities (account 254) to reflect the return of/collection from excess/deficient deferred taxes to/from customers. The remeasurement is effectuat within PowerTax and Tax Provision, which maintain both the timing difference and APB11 deferred tax balance (the historical ADIT based on the timing difference and the rate in effect when the timing difference occurred). The difference in the two results is reclassified from ADIT to regulatory assets/filabilities for deficient/excess ADIT. Within the FERC For Torm 1, deficient and excess ADITs in Account 182.3 and ADIT based on the regulatory assets/sead-up for tax prossed-up for tax pro

Beginning balance of year is the end of the prior year balance as reflected on FERC Form No. 1, pages 232 (Account 182.3) and 278 (Account 254) In the event the Company populates the data enterable fields, it will support the data entered as just and reasonable in its annual update
The amortization periods shall be consistent with the following:
Protected Property & Non-Protected Property:
ARAM, or directly assigned based on average remaining life of assets for property items not in PowerTax
Protected Non-Protected Non-Protected Non-Property will be directly assigned and presented in the table above
The amortization of the tax reg asset/liability will occur through FERC income statement Accounts 410.1. and 411.1 for property and 410.1 for non-property
Ending balance of year is the end of current year balance, as reflected on PERC Form No. 1, pages 232 (Account 182.3) and 278 (Account 254)
The amortization gross-up for taxes occurs on Attachment H-11A, page 3, line 32, Col. 3. ARO related EDIT shall not be included within the formula rate.
